WHAT YOU GET

- A plan that covers your whole financial life, not just your portfolio
- Diversified, low-cost investment management
- One flat 1% advisory fee, with planning included as assets grow
- A fiduciary who puts your interests first, by law and in practice
- Real advisor access: call, text, or email

WHAT WE DO

Two services, *done well.*

We kept it simple. Comprehensive financial planning and disciplined investment management, coordinated so every decision works with the others.

01 — INVESTMENT MANAGEMENT

Investment Management

Diversified, low-cost portfolios built around your goals, time horizon, and risk tolerance. One flat 1% advisory fee, no asset minimum, and planning included once your managed assets reach $300,000.

Learn more ↓

02 — FINANCIAL PLANNING

Financial Planning

A plan that covers cash flow, insurance, investments, retirement, tax strategy, and estate planning — updated as your life changes. Available on its own or included with investment management.

ABOUT

A financial partner who *knows you.*

Kibbel Financial Planning was built on a simple idea: people deserve real financial guidance, a dedicated advisor, and fees they can actually understand — at any asset level.

Too many people get handed a portfolio and never hear about the rest of their financial life. We work differently. We look at the whole picture — cash flow, insurance, investments, retirement, taxes, and estate — and we build a plan that holds together, because a decision in one area affects all the others.

Fiduciary-minded, *plainly stated.*

We are fiduciary-minded and genuinely invested in your outcome, not a transaction. We focus on two things done well: comprehensive financial planning and investment management. And we are accessible year-round, not just at an annual review.

Your plan should look like your life, not a template. We start by getting to know your full financial picture, then build a strategy that compounds over time, in your portfolio and in your habits. Faith informs how we approach this work: with integrity, humility, and a genuine desire to serve people well.

WHAT WE FOCUS ON

- Comprehensive, ongoing financial planning
- Diversified, low-cost investment management
- One-time and ongoing planning engagements
- Clear fees and clear conflict-of-interest disclosures
- A genuine advisor relationship, not a portfolio report

01 — INVESTMENT MANAGEMENT

Disciplined investing, *one flat fee.*

We manage diversified, low-cost portfolios built around your goals — with tax-efficient placement, ongoing rebalancing, no asset minimum, and one flat advisory fee. Financial planning is included at no additional cost once your managed assets reach $300,000.

HOW WE INVEST

- Diversified, low-cost portfolios of ETFs
- Allocation matched to your goals and risk tolerance
- Tax-efficient placement across account types
- Ongoing rebalancing and review
- No asset minimum. Start at any level
- Flat 1.00% annual advisory fee. No tiers, no surprises
- Independent third-party custody. Your accounts are always yours

UNDER $300,000

Investment Management

1.00%/yr

Billed monthly in arrears · planning available starting at $300/month

$300,000 AND ABOVE

Management + Planning

1.00%/yr

Financial planning included at no additional cost

A flat 1.00% of assets under management per year, regardless of account size, billed monthly in arrears. There are no tiers, no breakpoints, and no hidden charges. Our fee and billing practices are described in full in our Form ADV Part 2, provided before any engagement begins and available at adviserinfo.sec.gov or on request.

02 — FINANCIAL PLANNING

A plan that covers your whole *financial life.*

Financial planning isn't a document you file away. It's an ongoing strategy that evolves with your income, your family, your goals, and your life. We update it regularly, not just once a year. For clients with $300,000 or more in managed assets, planning is included at no additional cost.

THE FOUNDATION

Cash Flow & Income

Everything else rests here. We map what comes in, what goes out, and where the gaps are, then build a cash flow strategy that funds your goals without sacrificing your lifestyle.

PROTECT THE FOUNDATION

Insurance & Risk

You protect the foundation before you build on it. Life, disability, umbrella, long-term care. We review your coverage and identify gaps. Insurance products may be recommended; commissions may apply and are fully disclosed.

START BUILDING

Investments

With the foundation protected, we start building wealth. Asset allocation, account strategy, and portfolio construction, coordinated with your overall plan, not managed in isolation.

THE STRUCTURE

Retirement

The structure you're building toward. Retirement income modeling, Social Security timing, Medicare strategy, and the transition from accumulation to distribution, planned well in advance.

OPTIMIZE WHAT YOU'VE BUILT

Tax Planning

Roth conversions, bracket management, loss harvesting, estimated payments, and pre-year-end strategy. Tax planning is proactive, not something you do in April.

PROTECT & PASS IT ON

Estate Planning

Beneficiary designations, wills, trusts, power of attorney, healthcare directives. We coordinate with your estate attorney and make sure what you've built goes where you intend.

Three ways to access *planning.*

Start with a one-time plan, keep it current with an ongoing membership, or have planning included with investment management.

ONE-TIME COMPREHENSIVE PLAN

Planning Engagement

STARTING AT

$2,500 one-time

A complete plan you can act on

- Comprehensive written financial plan

Included With Management

$0 additional

Planning included in the 1% advisory fee

- Everything in the Planning Membership
- Full investment management
- Plan and portfolio managed as one strategy

À LA CARTE ADVISORY

One-time or targeted advice

For a specific question or decision without an ongoing commitment. Bring a job change, a tax question, an investment decision. Two-hour minimum.

STARTING AT

$250/hour

Two-hour minimum

Planning fees and services are described in full in our Form ADV Part 2 and client agreement, provided before any engagement begins and available at adviserinfo.sec.gov or on request.

COMMON QUESTIONS

Questions, *answered.*

GETTING STARTED

Is there a minimum to work with you?

No. We work with clients at any asset level. Investment management is available at any amount for a flat 1.00% annual advisory fee. Financial planning is available on its own, as a one-time engagement or a membership starting at $300/month, or included at no additional cost once you have $300,000 or more in managed assets.

Do you work with clients remotely?

Yes. We work with clients across the country using secure digital planning tools, so your location doesn't limit your access. Reach out by email, phone, or text, whichever works best for you.

What happens on the first call?

A free 30-minute conversation with no obligation. We learn about your situation and goals, answer your questions, and figure out together whether we're a good fit.

FEES & BILLING

How do your fees work?

Investment management is a flat 1.00% of assets under management per year, billed monthly in arrears, with no tiers or breakpoints. Financial planning starts at $300/month or $2,500 for a one-time plan, and it's included at no additional cost once your managed assets reach $300,000. À la carte advice starts at $250/hour with a two-hour minimum.

Are there any hidden fees?

No. Our advisory fee is separate from third-party charges you may incur, such as custodian fees or the internal expenses of the ETFs we use. Those are disclosed by the custodian and the fund, and they appear on your statements. We don't receive any part of them.

INVESTMENTS

How do you invest my money?

In diversified, low-cost portfolios built primarily with ETFs, allocated across asset classes to match your goals, time horizon, and risk tolerance, with tax-efficient placement and ongoing rebalancing.

Where are my assets held?

At an independent, third-party qualified custodian, regulated and with no affiliation to KFP. Your accounts are titled in your name, and you receive statements directly from the custodian.

FINANCIAL PLANNING

Can I get financial planning without investing with you?

Yes. Financial planning is available on its own, as a one-time engagement or a membership starting at $300/month, whether or not you invest through us.

Does planning include tax preparation?

No. Tax planning strategy is included in financial planning, but preparing and filing your returns is not part of the advisory relationship. If you need a preparer, we're glad to point you toward one.

WORKING TOGETHER

Are you a fiduciary?

Yes. When providing investment advice we act as a fiduciary, which means we are required to act in your best interest and to disclose and manage conflicts of interest. On certain products, such as insurance and annuities, we may also receive commissions, which are disclosed to you.

How do I reach my advisor?

By call, text, or email, whichever works best for you. We're accessible year-round, not just at an annual review.

GET STARTED

Let's start a *conversation.*

A one-time plan, a planning membership, or full investment management. We meet you where you are. Reach out however works best for you, by email, phone, or text, and we'll find a time to connect.
